The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/571,182	Applicant(s) WEILER ET AL.	
	Examiner Gary K. Graham	Art Unit 3727	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The drawings are objected to because in figure 1, the cross-sectional line "A-A" should be labeled as ---2-2--- to reference the figure in which the cross section is shown. The written description should be amended accordingly. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 5-8, 11-14 and 17-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Stevens (EP publication 0299708).

The publication to Stevens discloses the invention as is claimed. Stevens discloses a wiper arm (1) having a device (12) for swinging the wiper arm away from and toward a windshield (5). The device includes two spring elements (13,14) which retain the wiper arm in one of two stable positions (see fig.1) on each side of line (17). The springs each comprise a compressed region (note figure 4), at least as far as defined. As can be seen in figure 4, the underside of the spring are tapered toward central aperture (15). Such is considered to comprise a compressed region as claimed since there is a difference in relative thickness of the springs over their individual width.

With respect to claims 5, 6, 11, 12, 17 and 18, the device of Stevens is considered such that it can be manufactured from sheet metal as nothing would prohibit such. Note that Stevens sets forth that the arm can be made of any suitable material. Also, it appears the Stevens arm can be manufactured automatically as nothing would particular prohibit such.

Allowable Subject Matter

Claims 3, 4, 9, 10, 15 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary K. Graham whose telephone number is 571-272-1274. The examiner can normally be reached on Tuesday to Friday (7:00-5:00).
